### Our Mission

Our mission is to serve professionals in the strategic security industry, especially within the military, law enforcement, intelligence communities and naval by increasing their opportunities for advancement in the fields of intelligence management, counterterrorism studies, strategic security and protection management.

We keep long terms contractual agreements with international manufactures and special agreements with well known and well established suppliers while we are members of the Greek/Azer Chamber of Commerce and Greek/Russia friendship association.

As contractor of Kroll, an international organization in Security, Cyber Security and Investigation sector, (www.kroll.com) we bring the unknown to light by helping you manage compliance, navigate litigation, and mitigate risk relating to fraud, impropriety and security threats.

From investigations to cyber security, we find answers to your most critical questions every step of the way.

The challenge of our Company is to continuously render an outstanding service to its client base.

Our industry registration and policy ensures that we are providing the quality expected of a successful established defense and security provider and our philosophy is to fully protect your life, your business and your property through a range of innovative and quality products, systems, services and skilled personnel.

In order to be always in readiness against any request and demand, we have divided our Company in three main business and services sectors; Defense, Security and Training, providing:

- EOD/IED Equipment
- Military, Police & Special Forces Equipment
- Industrial Applications
- Surveillance & Counter Surveillance Products and Survices
- Commercial, Personal, Property & Executive Protection Systems & Services
- Land & Maritime Security / Safety Services
- Land & Maritime Security Equipment / Weaponry
- Security Consultancy Services
- Satellite Surveillance and Earth Observation Systems
- High Technology Defense and Security Solutions
- Communication & Telecommunications Solutions (including satellite communications)
- Security, Protection and Tactical Training

**DEFENSE & SAFETY**

E: info@armour.gr | W: www.armour.gr

**DEFENSE SECTOR**

We are official suppliers of Special Equipment and Special Armament for Governmental organizations, Police, Military, and Special Forces, Personal Military Companies and Security/Maritime Security Companies in worldwide basis.

We deliver whatever you need, wherever you need it, whenever you request it, with safety and accuracy at the best market prices and under the most profitable conditions.

We are totally flexible, accurate, we have many years of experience in defense and safety business and we always count on satisfied customers as they are our references and constitute our sales team.

As official and legal licensed supplier of defense products, we are able and we provide a large range of strategic added value products and services in all respective fields within the scope of our Company business and with full responsibility in the following major tasks:

- Defining and proposing a business unit strategy for market penetration in each region or country in close cooperation with the subsidiaries of our Group
- Identifying business opportunities, win-win campaigns and decision-making processes and informing the appropriate contacts within the business unit
- Determining the appropriate marketing approach in conjunction with other operating units supporting the negotiation process
- Boosting trade experience within the business unit.

Our Group is committed and has a responsibility to its clients to meet their defense and safety requirements as effectively and economically as may be feasible.

To this end, International Armour is tasked to fulfill many roles in order to meet its obligations:

- Identification, management and execution of research and development projects in conjunction with our suppliers
- Control and management of suppliers and the suppliers' registration system
- Management and execution of acquisition and procure net projects
- Quality assurance for acquisition project and other services rendered by our clients
- Facilitation of the defense-related industry
- Function as a tender board upon clients' request
- Establishment, acquisition and management of subsidiary companies
- Assisting our clients on various projects and providing a general service
- Reordering support to and performing an acquisition/ procurement function for approved organizations and government departments
- Performing government to government business on behalf of the DOD and the defense related industry
- The management of outsourcing on behalf of our clients
- Managing the intellectual property of our client

### SECURITY / MARITIME SECURITY

#### **Executive Security & Security Consulting**

The ever-evolving physical security threats to companies, employees, infrastructure and assets present unique challenges to organizations worldwide.

Should you have domestic or international Executive Protection requirements, our agents are available to travel within 24-hours. Our agents are trained in Secret Service techniques.

Our approach is unobtrusive allowing the protectee and the agents to “blend-in” to the visiting environment. Advance work is the key to our success.

All logistics are coordinated with our Advance Agents to expedite the protectee’s safe travel.

If management team members are threatened, we can provide 24/7 executive protection where ever the executive is located whether in transit, at the office, or in residence.

Occasionally, we are called upon to protect executives’ families as well. If the strikers tend towards violence we escort and protect replacement workers and salaried employees as they cross picket lines in and out of work.

We maintain a vast database of personnel with the requisite capabilities and experience (military and/or law enforcement).

Our group also is constituted by special Companies for Special programs and services in all defense, security and services sectors to name Patriot Risk Management ([www.patriotriskmanagement.org](http://www.patriotriskmanagement.org)), Avista Ventures ([www.avista-ventures.com](http://www.avista-ventures.com)), Kyprosun Shipping Services ([www.kyprosun.com](http://www.kyprosun.com)), Bodyguard Security ([www.bodyguardsecurity.gr](http://www.bodyguardsecurity.gr)) and Olympus Satellites ([www.olympus-sat.com](http://www.olympus-sat.com)).

Whether we are servicing or we protecting a fortune 100 executive or your Company, your property and your needs we have the experience and the specialized personnel to offer a broad array of services and to meet your specific needs.

In Maritime Security Sector, we keep Global Shipping Secure by providing full risk management strategies and physical maritime security to shipping community with and through our strategic partners, affiliated companies and expertise in Anti Piracy and Anti Terrorism sectors, offering a full range of services and professional solutions for both commercial and private vessels that are sail in all high risk areas.

Our Maritime Security forces are all the time stand by and under surveillance ready to undertake any kind of mission will be required around the clock.

Patriot Risk Management Company is maybe the only Company in maritime security sector with +1,000 weapons in actions and relevant experience personnel

**TRAINING SECTOR**

Once on site, we support client activities further through the effective implementation of stock management, storage technologies and resource.

Security incident can harm both your workers your assets and your reputation, and must be avoided at any cost.

Tough and soft skills, gained within practical exercises and guidelines, can make a difference.

Relevant training and preparation for your personnel prior to deployment aids fulfilling your fundamental duty of care.

Our staff, with decades of experience training in law enforcement and military special units, provides comprehensive basic and advanced training and coaching solutions for any situation anywhere in the world.

Our training and coaching skills are mainly focused on security sector reform, but nation-building support for emerging Interior and Defense Ministries in underdeveloped countries recovering from conflict or political instability.

We collaborate intimately with clients, international donor countries and local government organizations to assess risks and implement the right mix of professional services and advanced technologies.

Improve your tactical skills combining lessons in classrooms, practical applications and scenario exercises

Our "Qualification Courses" have as result the issuance of either a Certificate or Diploma upon completion.

Each qualification contains a series of core and elective units of competency, each unit of competency can be delivered as an individual course, we call these short courses, completion of a short course results in the issue of a Statement of Attainment.
